INFORMATION REPORT

CD NO.

**SUPPLEMENT TO
REPORT NO.**

25X1

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT 50 U.S.C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

1. Location: See Annex 1.
2. Layout: See Annex 2.
3. The plant, called Aircraft Plant No. 555 by the Soviets, was partly reconstructed by the Germans. The Soviets continued the construction work along the same lines.
4. Production: (Figures in brackets refer to items in Annex 2).
Electrical equipment was produced in the bakelite plant (2), standard radio sets were manufactured in building (3) and measuring instruments in building (7). Soviets said that the entire plant was to be converted to the production of measuring instruments for radio sets.
5. Location: About 600 meters south of the main railroad station, on the southern perimeter of Vilnius. It covered a site 1 km square. To the west was a church with a wooden spire.
6. Installations: [] only one new building but he said that only a small portion of the plant area was built up.

7. Work force: About 400 Soviets, including 50 per-cent women, working one shift.
8. Production: Soviets said that individual parts of radio sets and individual aircraft parts were being manufactured in the plant.
9. Power supply: Power was supplied by a Vilnyus power plant.

Comment:

25X1

- a. The existence of the Radio Equipment Plant in Vilnyus was previously reported * and **; The data on the location and the size of the plant are, however, at variance in all three reports. They are as follows:

	this report	*	**
Location	South of town	NW of town	Center of town
Size	1 km square	250x300 meters	700x300 meters three and four-story buildings
Work force	about 400 (in 1949)	200 (June 1946) 450 (June 1946)	400 (August 1947)
	one shift	one shift	one shift

- b. From the term Plant 555-II, used in a previous report, and the differing statements on the the location of the plant it is assumed that it consists of at least two separate sections. This assumption is also supported by a statement contained in another report that the plant buildings are two-story structures whereas in the present report it is said that they are three or even four-story structures.

-3-

c. The plant very probably is only a minor enterprise which was still under construction in 1949. From the received reports it is assumed that military and commercial radio sets and measuring and testing instruments for the radio industry are being manufactured there. Further details are not available.

2 Annexes, 2 sketches on ditto: 1. Location

Sketch of Radio Equipment Plant No.
555 in Vilnyus.

CENTRAL INTELLIGENCE AGENCY

Layout Sketch of Radio Equipment Plant No. 555

Legend:

- 1 Building, 24x50 meters; in 1945/1946
one story was completed
- 2 Building, 12x20 meters, four-story
structure, bakelite plant
- 3 Building, 20x100 meters, completed scale 1:10,000
in 1945. Ground floor UNCODED; the department
and fitting shop; first floor: Carpenter's shop
and final assembly of radio sets
- 4 Building, 20x40 meters, five stories completed in 1946
- 5 Building, 20x100 meters, three stories completed in 1946
- 6 Guardhouse
- 7 Building, 20x50 meters, completed in 1945;
manufacture of measuring instruments
- 8 Excavation of a 20x100x5-meter foundation
- 9 Five fuel tanks
- 10 Board fence
- 11 Preparations for new construction work
